Everything we do, just the way it is

There usually is a certain passion regarding what is seen from the distance. Distance reminds us of romance, yet it has a secondary effect: it hides, it avoids, it standardizes. Nothing could be further away from what we mean to give you. We could do it, if only we did not know how much time we spent making our designers' ideas real. We could do it, if we tried to make imperfect materials better, rather than choosing the best ones. We should do it, if we were not sure we took perfect care of every single detail. We will not do it. Everything we create is here in front of you, and we'd want you to see it, just the way it is.

Adachi riprende le forme di un elegante alambicco, dallo stelo lungo e snello che si apre in un top in vetro temperato. A permettere la creazione di una forma così particolare, un materiale duttile e prestante come l'agglomerato di marmo.

Adachi reminds of an elegant alembic, with a long stem opening to hold the tempered glass top. Cultured marble - an extremely ductile and strong material - allowed to arrange such a peculiar shape.

Adachi напоминает элегантный перегонный куб с длинным открывающимся стеблем, удерживающим поверхность из закаленного стекла. Искусственный мрамор - чрезвычайно пластичный и крепкий материал - позволил получить такую своеобразную форму.

adele

design_Angelo Tomaiuolo

Il design di Adele lo rende perfetto per adattarsi a diversi luoghi di varie dimensioni. Un triangolo con struttura in metallo verniciato – bianco lucido, nero lucido o champagne lucido – la cui essenza contemporanea viene mitigata dal piano in noce canaletto, o rovere scuro termotrattato.

Adele's design makes it perfectly adaptable to every kind of room. A triangle held by a varnished metal structure – glossy white, or glossy black – whose contemporary essence slightly diminishes with the Canaletto walnut, or the dark, heat-treated oak top.

Дизайн Adele делает его идеальным решением для любого интерьера и пространства. Треугольник со структурой из окрашенного металла – это может быть глянцевый белый, глянцевый черный или глянцевый шампанский, – чья современная сущность смягчается столешницей из черного ореха или темного термообработанного дуба

I colori e la forma, l'abbinamento di due triangoli a formare un elegante rombo. Adele è in grado di adattarsi agli ambienti più raffinati, e riesce in egual modo ad essere divertente e funzionale. Le linee precise al millimetro permettono di accostare agilmente i tavolini tra loro, o ad altri pezzi di arredamento, siano essi classici o moderni.

Colors and shape, a match of two triangles forming a diamond. Adele can be perfect for luxurious spaces, and at the same time be functional and entertaining. More than one can be put next to a sofa, side by side, one with the other, thanks to the perfectly smooth and precise finishing lines.

Цвета и форма, сочетание двух треугольников, формирующих изысканный ромб. Стол Adele способен вписаться в самый изысканный интерьер, оставаясь одновременно практичным и веселым предметом интерьера. Точность до миллиметра позволяет идеально прилегать столикам друг к другу или сочетать каждый из них отдельно с другими предметами интерьера, неважно, классическими или современными.

aida

design_Angelo Tomaiuolo

Come l'amore della principessa, anche Aida si fonda su due elementi estremamente diversi: una base in vetro trasparente, in tre linee rigide; un piano rivestito in legno noce canaleotto, o rovere scuro termo-trattato, tondeggiante. Una lavorazione complessa per armonizzare materie e disegni.

Just like the loves of the famous princess, this Aida is split between two very different elements: a see-through glass base, designed with three firm lines; a round Canaletto walnut, or dark heat-treated oak covered top. A complex manufacture, to harmonize materials and design.

Как и любовь принцессы, модель Aida также основана на двух разных элементах: основание из прозрачного стекла, которое продолжается тремя строгими линиями, и столешница с округлыми формами из ореха или термообработанного темного дуба. Это результат сложного процесса обработки, согласующего разные материалы и формы.

Aida 6037-6038

Coffee-table / Side-table:

Dall'alto, vedendo un delicato disegno a tre linee che dal centro evadono verso i bordi. Il legno è perfettamente fuso nella base vetrosa. Ancora una volta, la precisione tecnica risulta fondamentale nella riuscita estetica. Le venature del legno, pazientemente disposte per controbilanciare le linee di fuga del vetro, completano Aida, rendendo questo tavolino un omaggio sia alla cultura che ai materiali italiani.

Look at it from the top, and you will see the delicate drawing: three lines moving from the center, to the sides. Wood perfectly melts into a glass base. Once again, technical precision reveals to be fundamental for the aesthetic. Wood grains, patiently put in order, so to counterbalance the glass' vanishing points, complete Aida, an homage to both Italian culture and materials.

Если рассматривать модель сверху, можно заметить, как три тонкие линии расходятся от центра к краям столика. Древесина прекрасно вливается в стеклянную структуру. Это еще один пример того, что точность технических приемов является ключевой для эстетического успеха изделия. Прожилки дерева, рисунок которых умело контрастирует с полосами стекла, делают модель Aida настоящей данью культуры и итальянским материалам.

Si apre ampio e termina restringendosi, un cono di vetro su cui poggiare gli oggetti di ogni giorno, ma che possiede un'anima pratica, unita alla qualità estetica: l'apertura centrale infatti, oltre a valorizzare la curvatura e la linea del vetro, permette di raggiungere un comodo ripiano concepito come portariviste. Tutto visibile, in ogni dettaglio, per mostrare la qualità di ogni singolo pezzo.

It opens wide and it ends narrow, a glass cone on which to put every day's objects, but that still owns a strong practical soul: the central break, in fact, allows both to magnify the glass's curve, and to comfortably reach the magazine rack. Everything is visible, to show every single part's quality.

Столик расширяется к верху словно стеклянный конус, на котором можно располагать предметы повседневного обихода. Тем не менее душа у него практическая и не только эстетически прекрасная: открытое пространство в центре подчеркивает плавность линий и открывает доступ к нижней полке для журналов и газет. Все здесь на виду, чтобы подчеркнуть качество каждой детали.

Lo stile del tavolo Arpa, gli intrecci della base in legno curvato e la piacevole rotondità del piano sono se possibile ancor più evidenti in questa sua versione a consolle. I classici colori del legno di Tonin Casa – noce canaletto, rovere scuro termo-trattato e bianco opaco – incontrano piani in vetro nero, o bianco extra chiaro; le versioni in marmo comprendono il bianco di Carrara lucido, il Marquinia lucido ed il marmo grigio lucido.

Arpa's curved wood base and its round top's style are possibly even more evident in this console version. Основание Arpa из гнутого дерева и стиль его круглой поверхности, возможно, еще более заметны в этой консольной версии. Классические цвета древесины Tonin Casa — грецкий орех Каналетто, темный термообработанный дуб и матовый белый — соответствуют экстра-белым стеклянным поверхностям; также есть мраморные версии, либо с глянцевым белым мрамором Каррара, либо с глянцевым черным мрамором Маркиния.

Due ali di metallo curvato si incontrano in un inserto in legno, creando un disegno che decora il muro cui si appoggia. Consolle e mensola Albatross si prestano a diversi ambienti, grazie alla gamma di colorazioni disponibili. Finiture in bronzo pietra, verniciato bianco, rosa cipria e grigio caldo riescono a concedere un'immagine sempre diversa a ciascun complemento.

Alle volte, concentrarsi sull'effetto finale, sul totale di un'immagine, rende possibile coglierne i dettagli: preoccuparsi di sfalsare il metallo piegato, curare il tipo di legno dell'inserto, provvedere ad analizzare le ultime tendenze in fatto di colorazioni. Lavorare sul totale per poter mostrare ogni particolarità.

It is sometimes possible to catch the details by focusing on the final effect, on the resulting image: worrying about staggering two precious metal bars, caring about what kind of wood you should use, prepare an analysis of the last trends in fashion. Working on the entirety, in order to show every bit.

Иногда отдаваться во власть конечного результата, общего эффекта позволяет поймать детали, увидеть смещение гнутого металла, уход за деревом вставки, анализировать последние тенденции в мире цвета. Работая над общей целью, показать каждую деталь.

La consolle Altamura si ispira alla leggerezza del vetro, messa in mostra ed esaltata dal minimalismo delle forme. Una lavorazione complessa come quella della curvatura del vetro porta alla creazione di un oggetto lieve, elegante e raffinato. A dare spessore e varietà alla consolle, pensa un ripiano, disponibile sia in vetro temperato, che in legno.

Altamura console table takes its inspiration from glass' lightness, and tries to glorify it with its shapes' minimalism. The complex manufacture of curved glass, leads to a light, elegant and refined object. The wooden, or tempered glass shelf, was thought to thicken and vary the console table.

Консольные столы Altamura берут свое вдохновение от легкости стекла и пытаются превознести минимализм с помощью его форм. Комплексное производство гнутого стекла обеспечивает легкий, элегантный и утонченный объект. Полки из дерева или закаленного стекла предполагались для уплотнения и видоизменения консольного стола.

Sunset

design_Nicola Tonin

Proprio come il tramonto, il cerchio perfetto formato dalla specchiera Sunset si sposta verso destra, creando un pittoresco effetto di sbilanciamento. Lo specchio è disponibile nella versione argentata e in quella bronzata, in modo da adattarsi a diversi contesti luminosi. La mensola in legno noce canaletto, o rovere scuro termotratato taglia il "sole" a tre quarti, proprio come farebbe la linea dell'orizzonte.

Just like the sunset, the perfectly shaped circle formed by Sunset mirror moves right, creating a picturequely unbalanced effect. The mirror is available in the silver version and in the bronze one, so to adapt to different lights. The Canaletto walnut, or dark heat-treated oak shelf "cuts" the sun just like the edge of the horizon would.

Так же, как закат, идеально сформированный круг, образованный зеркалом Sunset, перемещается вправо, создавая живописно несбалансированный эффект. Зеркало доступно в серебряной и бронзовой версии, чтобы адаптироваться к различному освещению. Полки из грецкого ореха Каналетто или темного термообработанного дуба «разрезают» солнце так же, как это делает край горизонта.

tiffany

design_Angelo Tomaiuolo

Tiffany è una consolle ispirata ad un lusso morbido e delicato: il legno di frassino, in finitura noce Canaletto, rovere scuro, o rovere naturale, si abbina lieve al rivestimento in pelle ed eco-pelle, in tutte le colorazioni disponibili. Trapuntata e rivestita come il migliore degli imbottiti Made in Italy, Tiffany riesce a combinare due mondi tecnicamente diversi, unendoli in un prodotto dalla grazia unica.

Tiffany console table; it got its inspiration by a soft and delicate luxury: the ash tree - with a Canaletto walnut, dark oak, or natural oak finishing - quietly marries the leather, or eco-leather covering. A quilted covering, representation of the best Made in Italy manufacture, covers Tiffany, and combines two technically different worlds, resulting in a uniquely gracious product.

design_Claudio Lovadina

Con Alicante, il designer Lovadina ha deciso di unire le funzioni di oggetti diversi in un'unica opera di design. Una specchiera quadrata di solo vetro diviene ora anche un comodo appendiabiti, o si dota di un cassetto da utilizzare nei modi più svariati. L'aumentare delle funzioni va di pari passo con l'aumentare dell'effetto estetico: un sistema di illuminazione touch a led illumina Alicante, che diviene così anche una lampada a muro. Questa particolare specchiera si presenta con uno specchio argentato, uno specchio bronzato, e appendiabiti e cassetti in noce canaletto o rovere scuro termotratato.

In Alicante, designer Lovadina decided to reunite different objects' functions in just one piece of design. A square, full glass mirror now becomes a useful coat-hanger, or is equipped with an extremely adaptable drawer. The more the functions are, the better the aesthetic: a LED lighting system with touch control makes Alicante shine, and turns it into an elegant wall-lamp. This peculiar mirror is provided with a silvered, or a bronzed mirror, and Canaletto walnut, or dark heat-treated oak drawers.

В Alicante дизайнер Ловадина сочетает назначения разных предметов в едином дизайнерском произведении. Квадратное зеркало без рамы становится удобной вешалкой или оснащается выдвижным ящиком. Расширение функций идет в ногу с усилением эстетической привлекательности: сенсорное освещение превращает Alicante в настенную лампу. Это необычное зеркало может иметь отделку серебром, бронзой, оснащаться вешалкой и ящиками из черного ореха или термообработанного темного дуба.

callas

design_Studio Archirivolt

Soliti ad associare il legno curvato a forme ampie e voluttuose, Callas ci stupisce per l'uso anti-conformista: le curve sono qui rapide e decise, e formano la cornice entro la quale osservare il proprio riflesso. Un'ulteriore spinta verso l'innovazione viene data dalla versione in vetro fumé trasparente, unica nella sua eleganza.

7528

(R) L 108 P 6 H 200 cm

We are used to think of curved wood as a voluptuous and wide-shaped element, but CALLAS comes as a surprise: curves are here fast and neat, a frame holding your reflection. To further push towards innovation, a transparent fumé version is available, a uniquely elegant option.

Мы привыкли думать о гнутом стекле как об объемном и широком пластинчатом элементе, но CALLAS — настоящий сюрприз: его кривые линии — аккуратные и опрятные, рама удерживает ваше отображение. Толчком к дальнейшим инновациям стала прозрачная дымчатая версия — эксклюзивный элегантный вариант.

costantia

design_Studio28

Elegante e raffinato, Costantia è uno specchio che si esprime nella semplicità delle forme e nella qualità della lavorazione. Un unico vezzo lo caratterizza: il bisello perfettamente smussato, a concedere ulteriore grazia e un minimo movimento alla solidità della struttura.

Elegant and refined, Costantia is a mirror expressing simplicity of shapes, and quality in manufacturing. One tiny, characterizing exception: the perfectly smooth glass frame, to enhance this mirror's grace, and to add movement to the structure's solidity.

Элегантное и изысканное, Costantia — зеркало, выражающее простоту форм и качество в производстве. Одна маленькая характерное исключение: идеально гладкая рама из стекла, которая усиливает шарм этого зеркала и добавляет движение к монолитности структуры.

Bevelled mirrors:

Specchio definito tecnicamente "inclinato", Imperia è decisamente molto di più: la sua struttura particolare ottiene il duplice effetto di moltiplicare l'immagine riflessa e di ampliare la stanza in cui viene appeso lo specchio. È disponibile nella sola versione argentata proprio per esaltare la tridimensionalità della forma, oltre alla rifrazione della luce.

7527

L 90 P 11 H 78 cm

This mirror is technically referred to as "skewed", but it definitely is much more than this: its peculiar structure can actually duplicate the images reflected on it, and hence magnify the room in which it is hung. Only the silver mirror version is available, precisely to enhance its tridimensional shape, and to better refract light.

La specchiera Olmi ricorda una coppia di ellissi, lievemente allargate verso il basso, che siano uscite l'una dall'altra. La prima, la base, serigrafata o bronzata in varie finiture, lascia spazio al suo interno allo specchio vero e proprio, anch'esso bronzato o argentato.

stone

design_Angelo Tomaiuolo

Il design di Stone ricorda precisamente quello di una pietra vista da un punto di zenit perfetto: come un triangolo che abbia angoli estremamente smussati, Stone sembra chiamare a sé una dimensione ulteriore, quella del riflesso che vuole portare all'interno delle vostre stanze.

i colori e la pioggia
the colors and the rain

Modellando il vetro, e allungandolo, la sensazione di gravità spinge a percepire con maggiore nitidezza le variazioni di colore. Come una pioggia leggera che cangi i punti di luce, il vetro si modifica, ruota al centro della stanza e produce effetti limpidi ed intimi. Cambiano i colori, per attivare i sensi in maniera antica e contemporanea, per colorare con toni pastello oppure con chiare luci soffuse. Un punto luce, con Rain, diventa naturalmente il focus dell'intera stanza, donando ulteriore importanza ad ogni dettaglio del proprio living.

By shaping glass, and stretching it, the sensation of gravity being present pushes your perception. Color variations are hence more clear. Just like a light rain falling, glass changes, it spins at the middle of the room and produces clear and intimate effects. The colors change to activate your senses in an ancient and contemporary way, to paint pastel and clear and soft lights. Only one light gets the focus of the entire room, enhancing the importance of your furniture's every detail.

il decoro, il contemporaneo
decor, contemporary

Un'antica arte riprende vita e si tinge delle espressioni più contemporanee e vitali. Il desiderio di personalizzare ogni singolo punto del proprio living, vive e respira grazie alle carte da parati, i cui colori, le cui forme, le cui fantasie sanno concedere grazia oppure forza, levità oppure colore, ad ogni stanza. Tutto si forma in un gioco di colori e geometrie, in un caso, e disegni e luce nell'altro. Vi è, qui, la possibilità di arricchirsi di ogni variante possibile.

An ancient art comes back to life and gains the most contemporary and lively expressions. The wish for a completely customized realization in your own living space lives and breathes, thanks to these wallpapers. The colors, the shapes, the decorations, give grace rather than strength, lightness rather than color. In every single room. Everything takes shape in a game of colors and geometries, from one side, and drawings and light, from the other. Here, we have the chance to enrich oneself with every possible variation.

Fondata da Gianni Tonin più di 40 anni fa, TONIN CASA è stata sin dall'inizio esempio di passione, eleganza e ricerca nel settore arredamento.

Nel 1975 la sua attività principale era il commercio di scarpiere e mobili classici, pubblicando il primo catalogo nel 1982.

Il successo e la fiducia dei clienti fecero sì che nei primi anni '90 venisse avviata la produzione di mobili moderni, accompagnati dall'edizione di cataloghi dedicati ed all'espansione dell'area commerciale oltre il Triveneto.

Tonin casa, da allora, è in costante sviluppo e crescita, impegnata nel commercio a livello mondiale e nell'esportazione dei valori del Made in Italy, con prodotti sintesi di bellezza e funzionalità. Segni e tendenze che promuovono la tradizione del Design Italiano nel mondo.

Founded by Gianni Tonin more than 40 years ago, TONIN CASA has been, since the very beginning, a perfect example of passion, elegance and research in the furniture business.

In 1975 its main activity was the production of shoe cabinets and classical furniture, publishing the first catalogue in 1982.

Due to its success and the trust from our clientele, at the beginning of the Nineties, we started our production of modern furniture, together with publishing of specific dedicated catalogues and the expansion to areas beyond Northern Italy.

Since then, TONIN CASA has been in a continuous development and growth, engaging into worldwide sales and exporting the values of Made in Italy, with products which resume beauty and functionality. Signs and trends that promote the tradition of Italian Design in the world.

Основанная Джанни Тонин более чем 40 лет назад, фабрика Tonin Casa была с самого начала примером страсти, элегантности и исследований в мебельной индустрии.

В 1975 году основным направлением его деятельности было торговля шкафами для обуви и классической мебелью, издававши первый каталог в 1982 году.

Успех и доверие клиентов означало, что в начале 90-х было запущено производство современной мебели, сопровождаемое изданием каталогов, посвященных расширению торговой площадки за пределами Тривенето.

Tonin Casa, с тех пор, находится в постоянном развитии и росте, занимается торговлей по всему миру и экспортное значения "Сделано в Италии", с продуктами синтеза красоты и функциональности. Признаки и тенденции, которые способствуют традиции итальянского дизайна в мире.
