Everything we do, just the way it is

There usually is a certain passion regarding what is seen from the distance. Distance reminds us of romance, yet it has a secondary effect: it hides, it avoids, it standardizes. Nothing could be further away from what we mean to give you. We could do it, if only we did not know how much time we spent making our designers' ideas real. We could do it, if we tried to make imperfect materials better, rather than choosing the best ones. We should do it, if we were not sure we took perfect care of every single detail. We will not do it. Everything we create is here in front of you, and we'd want you to see it, just the way it is.

arpa

design\_Angelo Tomaiuolo

Arpa è un tavolo che ricerca l'armonia, nelle forme e nei materiali. Si presenta con piani in vetro ceramico o marmo. A sostenerlo, una base realizzata in multistrato termo curvato, e impiallacciata in noce o rovere scuro termotratato. Una versione fissa, classica come la musica cui si ispira; una versione allungabile con un binario in alluminio, contemporanea e funzionale. Il design è audace, e caratterizza tutto il programma Arpa, che oltre al tavolo prevede una consolle.

Arpa pursues harmony, both in shapes and materials. It comes with tempered glass, ceramic and marble tops. Thermoformed wooden legs sustain it. Both Canaletto walnut and heat-treated dark oak are available. One fixed version, just as classic as the music from which it got its inspiration; an extendible version, whose aluminum guide bar makes it contemporary and functional. This daring design fully represents the entire Arpa system: table and console table.

Un dettaglio, che descriva perfettamente quanta cura mettiamo nella lavorazione del legno: la curva delicata e morbida rende questo materiale un'opera, un simbolo di eleganza e qualità, da custodire là dove si condividono i momenti più sinceri. Arpa si può abbinare ad ogni gusto, grazie alla varietà di materiali disponibili, ed alla combinazione ideale di forme e colori.

A detail, to perfectly describe how carefully we work on wood: a smooth and delicate curve makes this material an actual piece of art, symbol of both elegance and quality, made to be held where the sincerest moments are shared. Arpa can satisfy everybody's taste, thanks to the availability of different materials, and to the perfect combination of shapes and colors.

Деталь, которая как нельзя лучше свидетельствует о том, сколько внимания мы уделяем обработке дерева. Изысканные мягкие изогнутые линии делает этот предмет мебели произведением искусства, символом утончённости и качества, сокровищницей, с которой можно разделить самые искренние минуты нашей жизни. Элемент Арга отлично впишется в любой интерьер благодаря разнообразию материалов отделки и безуказенному сочетанию форм и оттенков.

# brenta

design\_Angelo Tomaiuolo

Brenta parte dall'idea di una base che sia in grado di accordarsi a differenti ambienti: il metallo curvato si tinge di bianco, bronzo pietra o grigio carbone, abbinandosi perfettamente ad ogni stanza. Brenta premia la naturalezza del legno, la tenacità del vetro e il lusso del porcellanato.

The idea behind Brenta table, was to build a base that could fit in different locations: the curved metal can be painted white, stone bronze, or carbon grey, making it perfect for every room. Brenta chooses wood's natural soul, glass tenacity and porcelain stoneware luxury.

La solida durevolezza di un luogo ormai mitico come Brooklyn, ci ha ispirati per questo tavolo: una base in legno, geometrica e regolare, su cui poggianno piani fissi o allungabili, nelle varianti di vetro temperato, e ceramica.

The solid endurance of an almost legendary city - Brooklyn - was the inspiration leading to this table: a wooden, regular and geometric base, onto which fixed, or extendible tops are placed. Both tempered glass and ceramic glass are available for the tops.

Абсолютная стойкость практически легендарного города Бруклин стала вдохновением для создания этого стола: деревянное, стандартное и геометрическое основание, к которому прикреплены фиксированные или раздвижные поверхности. Una forza sottile: quest'idea sale alla mente, osservando lo stacco tra il colore del piano, un vetro fumé trasparente, e la pacata naturalezza della base in legno rovere scuro termotratato. Il design di Brooklyn è regolare e semplice, pensato per esaltare le diversità materiche, e le colorazioni di cui si può comporre.

A subtle strength: this is the idea that comes to one's mind, while observing the difference existing between the top's color – a fume grey, transparent glass – and the quiet nature of the heat-treated dark oak base. Brooklyn's design is regular and simple, thought to bring out the differences between materials, and the colorations you can use to compose it.

Хрупкая сила - такая идея приходит на ум, когда смотришь на контраст между цветом столешницы, прозрачным дымчатым стеклом и спокойной естественностью основания из термообработанного темного дуба. Дизайн стола Brooklyn - точный и простой, созданный, чтобы подчеркнуть различие материалов и красок.

La forza della struttura in metallo, unita all'elegante base di marmo ed al piano fisso in vetro, delicato e resistente, rende Capri un tavolo simbolo dell'italianità. Ancora una volta, materiali e tecnica, natura e innovazione, tesi alla creazione di un oggetto di eccezionale equilibrio.

The strength of the metal structure joins the elegant marble legs and the fixed glass top, making Capri a symbol of the Italian essence. It is enriched by a discreet luxury, shining and refined, it represents care, precision and devotion. Once again, materials and technique, nature and innovation aim at creating an exceptionally balanced product.

Сила металлической структуры в сочетании с элегантностью мраморной основы и фиксированной столешницы из на первый взгляд хрупкого, но очень прочного стекла делает стол Capri символом итальянского стиля. Полный сдержанной роскоши, игривый и утонченный дизайн – это результат внимательности, точности и огромной любви к своему делу. Это еще один пример того, как материя и техника, природа и человеческий гений становятся основой создания безукоризненного равновесия.

Avvicinarsi, quasi accarezzare con lo sguardo quest'affascinante texture. Immaginare i cambiamenti, le diversità del marmo nero Marquinia, del bianco di Carrara, dell'Emperador. Abbinare colorazioni di metallo e creare leggerezza oppure forza, morbidezza e pure rigore. Osservare la luce rifratta sul vetro di un piano semplice e raffinato.

Get close, almost touching this fascinating texture with your eyes. Imagine the differences, from black Marquinia marble, to Carrara marble, to the Emperador. Match metallic colors and create lightness, or strength, softness, or exactitude. Observe the light refracted on the simple, yet refined top's glass.

I mattoncini in legno massiccio si accostano precisi, ad imitazione della potenza del Colosseo. Riescono a ricordare ad un tempo un monumento ed un'opera d'arte. La struttura circolare poggia su una lamina sottile, è studiata per ottenere morbidi effetti di luce, per alleggerire la forza di questo tavolo omaggio ad una straordinaria opera architettonica italiana.

These small solid wood bricks match precisely, imitating Coliseum's strength. They remind us of a monument and a piece of art at the same time. The circular structure was put on a thin layer; it was made to obtain a soft lighting effect that enhances this table's strength. An homage to an extraordinary Italian building.

Smooth out extensions, conceived to make their use as easy as possible, every day; strict geometries, young and fresh; wooden structure and top, to remind materials' essential nature: Dafne, simply classic.

Скругленные удлиненные формы, тщательно изученные для того, чтобы создать изысканное и одновременно удобное и практичное ежедневное пользование. Строгие формы и дизайн, но со штрихом юношеской свежести. Столешница и несущая структура из дерева подчеркивают естественность и саму сущность материи. Все это –изысканная простота стола Dafne.

Il progetto per la creazione di Dafne parte da un concetto molto semplice: l'essenza. Guardando da vicino la linea chiara e snella della gamba, si nota come Dafne riesca a mantenere la vivacità di un oggetto fondamentale in ogni abitazione, e nel tempo renderlo in grado di essere personale e utile. Ed è proprio questa la sua essenza: un minimalismo sobrio, contemporaneo per funzioni e possibilità di essere posto all'interno di spazi di ogni genere.

Dafne's project starts out of a simple concept: essence. It is easy to notice how the clear and skinny legs are capable of providing liveliness in every home, and at the same time make Dafne a personal and useful object. And this is exactly its essence: a sober minimalism, for an easy-to-arrange product.

В основе проекта стола Dafne лежит простая концепция: дерево. Всматрившись внимательнее в четкие и стройные линии ножки стола, можно сразу же понять, почему Dafne удается сохранить динамизм такого важного для любого жилья элемента, как стол, и одновременно являться полезным предметом обихода и стильным предметом интерьера, отражающим персональный характер. В этом и кроется сущность дерева: трезвый минимализм, современные функции и способность отлично вписаться в любой интерьер.

La caratteristica principale del tavolo Firenze è la base di listelli in legno massiccio noce canaletto, o rovere scuro. I listelli vengono accoppiati uno ad uno, per creare una scultura a spirale che crea un elegante effetto ottico. Un piano in vetro, disponibile in più misure, chiude la struttura. L'originalità di Tonin si mescola qui a precisione, qualità e praticità: il tavolo è infatti disponibile sia con base singola che con base doppia.

Firenze table's main characteristic regards its base: it is made with solid Canaletto walnut, or solid dark oak slats. The slats are paired one by one, forming a spiral sculpture that creates an elegant optical illusion. A glass top, available in different sizes, completes the structure. Light is essential, pure and minimal. Its functionality goes as far as its extensions, its wideness makes it ideal for numerous guests, to offer a sense a lightness and modernity.

LIGHT — существенный, чистый и минималистичный. Его функциональность заключается в его расширениях, а его ширина делает его идеальным для многочисленных гостей, предлагая ощущение легкости и современности.

Una delle migliori qualità del design, risiede nella sua infinitezza: la tecnologia migliora, e aumentano così le scelte disponibili per realizzare i propri prodotti nella migliore delle maniere. Un concetto già in uso, come quello di tavolo allungabile, può così variare, e rinnovarsi e risultare sempre contemporaneo. In Light, abbiamo cercato di raggiungere precisamente questo risultato.

One of interior design's best quality, is its infiniteness: technology gets better, and the consequent available choices grow, to build your products in the best possible way. An already used concept, such as that of an extendible table, can thus vary, and renovate and end up to be contemporary. This is the result we looked for, for our light.

Одно из главных достоинств дизайна заключается в его бесконечности: технологии совершенствуются, и появляются больше доступных способов сделать собственную продукцию ещё лучше. Такой принцип уже используется, как в случае с раздвижным столом, который может меняться, обновляться и оставаться всегда современным. С моделью Light мы постарались добиться именно такого результата.

Il morbido calore del legno incontra in Rizoma la fantasia, l'estro e la tecnica del design. Un'idea che riesce a formare un connubio tra il più naturale e ricercato dei materiali, e la tecnica più avanzata. Una base in legno curvato che si svolge a spirale, e sorregge il piano in vetro.

Wood's soft heat meets our designer's fantasy, imaginative mind and technique: Rizoma. The idea managed to combine one of Nature's most precious materials, and the most advanced working techniques. This curved wood base swirls and spins up to the top, holding a light and precious glass top.

Tokyo è disponibile nella versione fissa, o allungabile con binario in alluminio e piano in vetro, vetro ceramico, legno o marmo. La base in agglomerato di marmo, la cui curvatura crea un forte dinamismo, è disponibile con una finitura RAL, un dettaglio che permette di personalizzare a piacere la propria sala da pranzo. Le combinazioni che si possono creare sono molteplici, e il design risulta ad un tempo contemporaneo e classico, grazie soprattutto all'innovativo piano allungabile in legno.

Il legno massello, naturalmente caldo ed accogliente, si rinfresca nelle nuove versioni disponibili. Il suo design, ormai divenuto parte della storia di Tonin Casa, matura e rinascce, grazie ad uno studio accurato dei materiali e delle nuove tecniche di lavorazione. Il legno massello, in particolare, conferisce ulteriore spinta estetica e durevolezza: un'unica tavola, calda e resistente, elegante e classica sopra alla base in stile contemporaneo.

This solid wood, naturally warm and welcoming, gets refreshed by the new versions available. Its design has now become part of Tonin Casa's history, aging, but changing, thanks to the materials and our new techniques.

Массив дерева, который уже сам по себе является естественно теплым и создающим уют, обновляется в новых моделях. Дизайнерские изыскания с использованием этого материала, которые стали частью истории мебельного дома Tonin Casa, совершенствуются и обновляются в процессе тщательного изучения свойств материалов и новых технологий обработки. Такой материал, как массив дерева придает дополнительные эстетические преимущества и долговечность уникальному столу, теплому и прочному, с элегантной классической столешницей, которая установлена на современном стилевом основании.

# ventaglio

design\_Nicola Tonin

Concepito in Italia e composto di sole materie prime italiane, Ventaglio offre un connubio ideale di sapienza artigiana e qualità. La base del tavolo, e principale caratteristica di questo prodotto, è realizzata in metallo curvato e verniciato in diverse colorazioni. Il piano, allungabile o fisso, è disponibile in vetro, vetro ceramico e legno. L'eleganza del design si rivela al suo massimo, nella versione allungabile in legno.

Ventaglio was conceived in Italy, and made out Italian raw materials. It offers the perfect combination of craftsmanship and quality. The curved metal legs, main characteristic of this table, can be varnished with different colors. Glass, tempered glass and wooden tops are available, both fixed and extendible. Uncover the elegance of its design with the extendible, wooden version. Solid wood provides further endurance and beauty: a whole board, warm and resistant, elegant and classic, standing out, above the contemporary base.

Wave è il risultato di una lunga serie di studi e pensieri su diverse tecniche di lavorazione e materiali innovativi. L'utilizzo del Baydur® ha permesso che la base andasse ad imitare perfettamente la forza ed il movimento di un'onda; inversamente, il piano viene sostenuto da quell'onda, placandola e ridefinendola: trasformandola da puro movimento a stasi.

WAVE is the result of long and diverse techniques, based on how to work with different and innovative materials. We decided to use Baydur, a material that allowed the base to perfectly imitate a wave's strong movements. To counter-balance, the top was thought to look as static as possible, a line to appease and redefine the wave. It starts as pure movement; it ends as stasis.

WAVE является результатом применения длительных и разнообразных технологий, основанных на том, как работать с различными и инновационными материалами. Мы решили использовать Baydur, материал, который позволил основанию идеально имитировать сильные движения волн. Для уравновешивания предполагалось, что поверхность будет выглядеть как можно более статической, а линия — умиротворяющей и определяющей волну. Начинается как чистое движение; завершается, как статика.

Combinare materiale e colore, per esaltarne la forma: il Baydur® di Wave si tinge di beige, un tono pacato e dolce, che ne addolcisce la linea già di per sé morbida. La luce si rifrange sulle curve della base, evidenziando la precisione con cui il materiale è stato lavorato, e dando corpo e presenza alla caratteristica più peculiare e innovativa di questo tavolo.

Combining material and color, to bring out the shape: Wave's Baydur® goes beige, a quiet and sweet shade, to sweeten its already soft line. Light hits the curves of the base, highlighting the precision it took to work on this material, and breathing life into the most peculiar and innovative characteristic of this table.

Сочетание материала и цвета, чтобы подчеркнуть форму: il Baydur di Wave окрашен в бежевый, спокойный и теплый тон, который смягчает уже и так нежную линию. Свет преломляется на изгибах основания, подчеркивая точность, с которой был обработан материал, и придает особенный, новаторский вид столу.

Ventaglio è una consolle allungabile, che può diventare un tavolo molto spazioso. La base in metallo sagomato laccato ben si adatta ai piani in effetto legno. Basi di un bianco opaco, nero opaco o bronzo pietra si abbinano perfettamente ai piani in noce canaletto, rovere scuro con effetto a rilievo e bianco opaco.

Ventaglio is an extendible console table, that can become a quite large dining table. The lacquered metal base is perfect for the wood covered tops. Matt white, matt black, or stone bronze bases perfectly match the Canaletto walnut, dark embossed oak and the matt white tops.

Il ventaglio alla base della consolle si apre agilmente, con un meccanismo semplicissimo e che garantisce un effetto estetico ideale. Le gambe ruotano, il ventre del piano si allunga e viene sostenuto nella zona centrale da due sostegni tubulari estraibili. La possibilità di ottenerne un tavolo abbastanza grande da ospitare anche otto persone non toglie alcunché al design di Ventaglio, una consolle studiata per apparire sempre unica, leggera ed elegante.

The fan-like base easily opens, thanks to a simple mechanism that also provides an ideal aesthetic effect. The base rotates, the top widens while being supported by two extractable legs. Being able to have a table that is big enough to comfortably sit up to eight people does not affect Ventaglio's design, at all: its shapes are unique, light and elegant.

Основание в форме веера открывается при помощи простого механизма, обеспечивающего безупречный эстетический эффект. Поворачивая ножки, веер раскрывается и поддерживается в центре двумя съемными трубками. Hole è una sedia stampata in polipropilene, un materiale che permette l'unione di sostenibilità ecologica e resistenza. La struttura in metallo laccato o cromato ben si abbina ai colori disponibili per la scocca: bianco, sabbia, grigio blu cadetto, rosso mattone e fango. Una sedia ideale sia per un ambiente cucina moderno e raffinato, sia per l'ufficio.

Hole is a polypropylene molded chair. This material allows to put durability and eco-sustainability together. The lacquered or chromed metal structure perfectly coordinates with the upholsteries. These latter are available in white, cadet blue grey, brick red, sand and mud. An ideal sit for both a modern and refined kitchen, and for your office.

I dettagli di Hole, in penombra, vengono esaltati dalla luce che ne attraversa lo schienale. I contorni morbidi e piacevoli, uniti agli effetti di luce ed ombra dati dal colore e dalle gambe sottili e moderne si uniscono centralmente, come in un bizzarro punto di fuga prospettico.

A soft light can enhance Hole's figure, just by passing through its back. Its smooth, enjoyable profile, mixed with the light shadows brought by colors, shapes and legs, all reunite centrally, forming a bizarre vanishing point.

Детали стула Hole, словно скрытые полутенью, отлично выделяются игрой света, проходящего сквозь спинку. Мягкие приятные контуры и игра света, образуемая расцветкой и тонкими ножками современного дизайна воссоединяются в центре, словно в причудливой перспективной точке.

Una sedia, o una poltroncina, il cui punto di forza è lo schienale: costruito in acciaio armonico, oscillante, è una delle punte di diamante del design. La tecnica in questo caso spinge verso la comodità, verso un uso il più possibile confortevole e piacevole. Esteticamente, si presenta nelle versioni con e senza braccioli, diventando così sia capo-tavola, che sedia; il rivestimento è disponibile in una versione standard, ed in una con trapuntatura a rombi, lavorazione che esalta ulteriormente lo slancio dello schienale.

Coming both as a chair, or as a small armchair, Kosmos finds its strength in its backrest: it was built in oscillating, harmonic steel, the crown jewel of our chair design. The technique we used, aims in this case at the most pleasant and cozy comfort. It comes with, or without armrests; it has a standard covering, and a rhombus patterns covering. The latter truly extols the backrest's momentum.

Как в виде стула, так и небольшого кресла, KOSMOS обретает свою силу в спинке: она была сконструирована из осциллирующей, гармонической стали — жемчужины нашего дизайна стульев. Техника, которую мы использовали, нацелена в этом случае на самый приятный и уютный комфорт. Он поставляется с или без подлокотников; он имеет стандартное покрытие, и покрытие с узором «ромбы». Последнее действительно усиливает привлекательность спинки.

Fondata da Gianni Tonin più di 40 anni fa, TONIN CASA è stata sin dall'inizio esempio di passione, eleganza e ricerca nel settore arredamento.

Nel 1975 la sua attività principale era il commercio di scarpiere e mobili classici, pubblicando il primo catalogo nel 1982.

Il successo e la fiducia dei clienti fecero sì che nei primi anni '90 venisse avviata la produzione di mobili moderni, accompagnati dall'edizione di cataloghi dedicati ed all'espansione dell'area commerciale oltre il Triveneto.

Tonin casa, da allora, è in costante sviluppo e crescita, impegnata nel commercio a livello mondiale e nell'esportazione dei valori del Made in Italy, con prodotti sintesi di bellezza e funzionalità. Segni e tendenze che promuovono la tradizione del Design Italiano nel mondo.

Founded by Gianni Tonin more than 40 years ago, TONIN CASA has been, since the very beginning, a perfect example of passion, elegance and research in the furniture business.

In 1975 its main activity was the production of shoe cabinets and classical furniture, publishing the first catalogue in 1982.

Due to its success and the trust from our clientele, at the beginning of the Nineties, we started our production of modern furniture, together with publishing of specific dedicated catalogues and the expansion to areas beyond Northern Italy.

Since then, TONIN CASA has been in a continuous development and growth, engaging into worldwide sales and exporting the values of Made in Italy, with products which resume beauty and functionality. Signs and trends that promote the tradition of Italian Design in the world.

Основанная Джанни Тонин более чем 40 лет назад, фабрика Tonin Casa была с самого начала примером страсти, элегантности и исследований в мебельной индустрии.

В 1975 году основным направлением его деятельности было торговля шкафами для обуви и классической мебелью, издававши первый каталог в 1982 году.

Успех и доверие клиентов означало, что в начале 90-х было запущено производство современной мебели, сопровождаемое изданием каталогов, посвященных расширению торговой площадки за пределами Тривенето.

Tonin Casa, с тех пор, находится в постоянном развитии и росте, занимается торговлей по всему миру и экспортное значения "Сделано в Италии", с продуктами синтеза красоты и функциональности. Признаки и тенденции, которые способствуют традиции итальянского дизайна в мире.
